Stadio Plus

Add that final design value
to your home.

Objects that have been created with the aim of coalescing the benefits of state-of-the-art technology with the most up to date and contemporary designs.

Extruded from Aluminium, adjustable pan and tilt CCD B/W or colour camera, with electronic iris, and light emitters for night vision. Illuminated key pad and 2x16 bias lighted LCD display with alphanumeric repertory function for access code with 2 calling methods. Our clever thinking aims to make things easier for you.

Any place is no problem. Vandal resistant (IK-O9) and weatherproof (IP-44) panel curved front of 2.5mm thick injected aluminium, 4mm thick polycarbonate camera windows, double walled sound grille, and security screws, with special key.

Rock Series

Much more than just an exercise in style.

Platea Plus

P l a t e a .

C h a r i s m a m i r r o r e d i n i t s d e s i g n

It's difficult to find anything like Platea that will be admired for its charisma, and beautiful design. Clever technology combined with distinctive style, you always come out on top but, first and foremost, the best thing about Platea Monitors is the choice of colours available for customizing the front face plate that are quite unique.
